WASARA Announces Launch of “Bamboo Cutlery line”

WASARA (www.wasara.jp) is pleased to announce that a new product line “Bamboo Cutlery - fork, knife, spoon” will be launched in February 2012.

WASARA Bamboo Cutlery is a full line of elegantly designed, single-use dining utensils.

It is made from 100% natural bamboo, which for centuries has been the material of choice for many Japanese crafts. Lightweight and sturdy, WASARA Bamboo Cutlery has a smooth finish, and is warm to the touch. A gentle curve distinguishes each fork, knife, and spoon, yet the most unique feature is a slit on each piece, which allows the utensils to securely attach to a plate, bowl, or cup. Utensils balance without assistance, accommodating a more graceful dining experience. As with WASARA Tableware, WASARA Bamboo Cutlery is fully compostable.

bamboo fork
165mm

bamboo knife
165mm

bamboo spoon
165mm
